

Experienced DevOps Solutions for The Public Sector

ReleaseTEAM is a veteran-owned, full-service DevOps consultancy. Our focus is on helping our clients adapt and mature their software development environments with solutions tailored to their objectives and culture. We have been serving software development teams since 1999, we know legacy tools and best practices, and we partner with the best modern tool vendors.

We specialize in migrations and assessments but can bring extensive experience to all of your DevOps projects, including support, staff augmentation, coaching, and software solutions. Our staff will work with you to understand your unique needs, audit your current development process, and recommend adoption paths with the highest return.

“ReleaseTEAM is very responsive. Within minutes I have a response and within the week I get a detailed answer for what I need. It speaks volumes. They make my job easier.”

Chris O’Brien
Business Systems Manager
Raytheon Technologies Corp. (RTX)

CONSULTING

Our expert DevOps consultants understand that agility shouldn't compromise reliability. When you need to develop and release code that ensures your company retains the competitive edge, ReleaseTEAM will ensure your process addresses every requirement and mitigates the risks with every new release.

SUPPORT

ReleaseTEAM provides expert support services for all our partner products, including advice on best practices and 24-hour availability for emergencies. Our expert consultants support modern and legacy applications, and are always available to resolve issues remotely, via email or phone, and even on-site if required.

SOFTWARE

We partner with industry-leading technology providers to ensure you get the efficiencies from the latest DevOps solutions. As a service solution partner, ReleaseTEAM can assist you with tool selection, implementation, migration, support, licensing, or upgrades.

TEAM BUILDING

ReleaseTEAM's experienced consultants work with your team until you can hunt down the right new hire. Meanwhile, use ReleaseTEAM's experts to train your trainers, or mentor your management staff, to ensure the complete transfer of skills into your organization.
